Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 16, 2007 has been entered.

Allowable Subject Matter

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or reasonably suggest, the extrusion head, as recited by instant claims 1-7, particularly the at least one flow passage radially opening into the annular passage of the annular passage arrangement for introducing material forming the viewing strip, the flow passage opening upstream of the annular gap in the region of separation of the flow paths, the flow passage being provided by the flow divider, the flow divider including the flow passage bore which extends transversely therethrough with respect to the extrusion direction and which establishes flow passage communication with the annular passage. The Information Disclosure Statement (IDS) filed on November 16, 2007 has been considered. The EPO Search Report in the IDS cites several references. EP 0 491 093 and WO 98/08668 have already been cited in this application. EP 0 575 039 claims priority to US Patent Application 900,195, filed on

June 17, 1992, which issued as US Patent 5,204,120, and US Patent 5,204,120 has already been cited in this application. EP 0 575 039, WO 02/085602 and US 5,464,107 do not teach or reasonably suggest the extrusion head, as recited by instant claims 1-7, particularly the at least one flow passage radially opening into the annular passage of the annular passage arrangement for introducing material forming the viewing strip, the flow passage opening upstream of the annular gap in the region of separation of the flow paths, the flow passage being provided by the flow divider, the flow divider including the flow passage bore which extends transversely therethrough with respect to the extrusion direction and which establishes flow passage communication with the annular passage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Leyson whose telephone number is (571) 272-5061. The examiner can normally be reached on M-F 9AM-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gupta Yogendra can be reached on (571) 272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
